HyPro

STP305S - 20/Wfm
STP300S - 20/Wfm
STP295S - 20/Wfm

305 Watt
MONOCRYSTALLINE SOLAR MODULE

Features

- High module conversion efficiency
  Module efficiency up to 18.6% achieved through advanced cell technology and manufacturing capabilities

- Positive tolerance
  Positive tolerance of up to 5W delivers higher output reliability

- Extended wind and snow load tests
  Module certified to withstand extreme wind (3800 Pascal) and snow loads (5400 Pascal) *

- High PID resistant
  Advanced cell technology and qualified materials lead to high resistance to PID

- Suntech current sorting process
  System output maximized by reducing mismatch losses up to 2% with modules sorted & packaged by amperage

- Withstanding harsh environment
  Reliable quality leads to a better sustainability even in harsh environment like desert, farm and coastline

Certifications and standards:
IEC 61215, IEC 61730, conformity to CE

Trust Suntech to Deliver Reliable Performance Over Time

- World-class manufacturer of crystalline silicon photovoltaic modules
- Unrivaled manufacturing capacity and world-class technology
- Rigorous quality control meeting the highest international standards:
- Regular independently checked production process from international accredited institute/company
- Tested for harsh environments (salt mist, ammonia corrosion and sand blowing testing: IEC 61701, IEC 62716, DIN EN 60068-2-68)***
- Long-term reliability tests
- 2 x 100% EL inspection ensuring defect-free modules

Advanced HyPro Technology

The HyPro cell uses back surface passivation and local BSF technology, which can improve cell efficiency by a large margin.

Industry-leading Warranty based on nominal power

- 97.5% in the first year, thereafter, for years two (2) through twenty-five (25), 0.7% maximum decrease from module's nominal power output per year, ending with the 80.7% in the 25th year after the defined warranty starting date.***
- 12-year product warranty
- 25-year linear performance warranty

IP68 Rated Junction Box

The Suntech IP68 rated junction box ensures an outstanding waterproof level, supports installations in all orientations and reduces stress on the cables. High reliable performance, low resistance connectors ensure maximum output for the highest energy production.

* Please refer to Suntech Standard Module Installation Manual for details.
**WEEE only for EU market.
**** Please refer to Suntech Product Warranty for details.

Made in China

---

**Mechanical Characteristics**

- **Solar Cell**: Monocrystalline silicon 6 inches
- **No. of Cells**: 60 (6 x 10)
- **Dimensions**: 1650 x 992 x 35mm (64.96 x 39.1 x 1.4 inches)
- **Weight**: 18.3 kgs (40.3 lbs.)
- **Front Glass**: 3.2 mm (0.13 inches) tempered glass
- **Frame**: Anodized aluminium alloy
- **Junction Box**: IP68 rated (3 bypass diodes)
- **Output Cables**: TUV (2Pfg1169:2007)
  - 4.0 mm² (0.006 inches²), symmetrical lengths (-) 1000mm (39.4 inches) and (+) 1000 mm (39.4 inches)
- **Connectors**: Genuine MC4

Information on how to install and operate this product is available in the installation instruction. All values indicated in this data sheet are subject to change without prior announcement. The specifications may vary slightly. All specifications are in accordance with standard EN 50530. Color differences of the modules relative to the figures as well as discretisations of the modules which do not impair their proper functioning are possible and do not constitute a deviation from the specification.
