HyPro

375 Watt
MONO HALF CELL SOLAR MODULE

Features

- **High power output**
  Compared to normal module, the power output can increase 5W-10W

- **High PID resistant**
  Advanced cell technology and qualified materials lead to high resistance to PID

- **Excellent weak light performance**
  More power output in weak light condition, such as haze, cloudy, and morning

- **Extended wind and snow load tests**
  Module certified to withstand extreme wind (3800 Pascal) and snow loads (5400 Pascal) *

- **High system voltage compatible**
  Maximum 1500 V DC system voltage reduces total system cost

Trust Suntech to Deliver Reliable Performance Over Time

- World-class manufacturer of crystalline silicon photovoltaic modules
- Unrivaled manufacturing capacity and world-class technology
- Regular independently checked production process from international accredited institute/company
- Tested for harsh environments (salt mist, ammonia corrosion and sand blowing testing: IEC 61701, IEC 62716, DIN EN 60068-2-68)***
- Long-term reliability tests
- 2 x 100% EL inspection ensuring defect-free modules

Industry-leading Warranty based on nominal power

- 97.5% in the first year, thereafter, for years two (2) through twenty-five (25), 0.7% maximum decrease from MODULE’s nominal power output per year, ending with the 80.7% in the 25th year after the defined WARRANTY STARTING DATE.****
- 12-year product warranty
- 25-year linear performance

Special Cell Design

The unique cell design leads to reduced electrodes resistance and smaller current, thus enables higher fill factor. Meanwhile, it can reduce losses of mismatch and cell wear, and increase total reflection.

IP68 Rated Junction Box

The Suntech IP68 rated junction box ensures an outstanding waterproof level, supports installations in all orientations and reduces stress on the cables. High reliable performance, low resistance connectors ensure maximum output for the highest energy production.

Information on how to install and operate this product is available in the installation instruction. All values indicated in this data sheet are subject to change without prior announcement. The specifications may vary slightly. All specifications are in accordance with standard EN 50380. Color differences of the modules relative to the figures as well as discolorations of the modules which do not impair their proper functioning are possible and do not constitute a deviation from the specification.
